

Srigajesh

Experienced UI Designer with 2 years in creating user-friendly interfaces for web and mobile. Seeking a role to leverage design expertise and enhance user experiences.

EXPERIENCE

Qliclabs Technologies, Mangalore— UI Designer

18 October 2021 - Present

- Created visually engaging and user-friendly interfaces for web and mobile applications using Adobe XD and Figma, ensuring a seamless user experience.
- Collaborated closely with the development team to translate design concepts into functional code, maintaining design consistency throughout the development process.
- Leveraged Adobe Photoshop and Illustrator to design and optimize high-quality graphics, icons, and other visual elements to enhance the overall user interface.
- Produced detailed wireframes to outline the structure and layout of interfaces, streamlining the design process and ensuring efficient communication of design ideas.
- Conducted regular usability testing and gathered user feedback to iterate and refine designs, resulting in a 20% increase in user satisfaction and engagement.
- Consistently adhered to color theory principles and typography best practices to ensure visual harmony and readability in designs.

Mangalore University, Mangalore— Internship

July 2020 - October 2020

- I played the role of a developer to create a dynamic CRM system and a web-based application.
- The system facilitates user registration, land listing.
- This project not only showcases my technical skills in web development but also serves as a practical solution for real estate enthusiasts and investors to connect, making land sales and project purchases more efficient and accessible.
